

Connect Hodgeman Leadership Experience

WHAT? Communities that will thrive in the 21st century and beyond are those with good leadership. Everyone needs to be involved and everyone needs the capacities needed to lead their communities forward.

Connect Hodgeman was designed to give you the tools needed to understand what makes an effective community, to learn to work effectively in performing teams, and to contribute your talents for the good of the community.

WHO? Anyone who would like to learn more about consensus building and collaboration...about making a real difference in your community, is invited to attend. Participants must commit to attend all of the sessions and complete a community project to graduate.

WHEN? The next class will start in December, 2009.

The Agenda is now being re-worked and will be available in November, 2009. Registration will be due by December 25th. Costs will be kept to a minimum...and scholarships will be made available.

If you are interested, contact Lea Ann Seiler at 620-623-2490 for more information.
